INDIA PVT. LTD.

K-SPAN, PEB & PRE-FAB STRUCTURES

OUR COMPANY

GRRGL was founded in 2001. The Company Specializes in the field of Fabrication & Erection of “K-Span” (Truss Less, Self Supported, Arch Shape) , PEB & Pre-Fab Buildings and as such has become the Leader in the Industry and Market place.

Our Products & Services are being provided Across the globe under our Flagship Brand

“INDOSPAN”

GRRGL is EN ISO 9001 : 2009, OHSAS-18001 Certified Company.

GRRGL employs over 200 regular full time employees in India and Abroad with various Techno Commercial & Managerial Capabilities.

Our combined subject matter expertise encompasses 20 years of seasoned Knowledge in our particular field. Our overall team members are multi-crossed trained and OST skilled in other specialized fields of Interest such as mechanical, electrical & welding etc. Our On-site Training (OST) allows to optimize and utilize the talents to maintain proficient performance and reduces the cost of overhead redundancies on areas of specialized skilled disciplines, and other operations, keeping operations to their reasonable limits, as to on time performance.

OUR PRODUCTS & SERVICES

- K-Span (Truss Less / Self Supported / Arch Shape), PEB & PRE-FAB Fabrication and Erection of Structures to include but not limited to, Aircraft Hangers, Accommodations, Workshops, office space, warehousing, for multiple applications as to the End Users requirements.
- HVAC Ducting Systems, Design & Built or Fabrication upon Design & Specifications.
- Thermal insulated SPF application for all exterior and interior requirements.
- Our A&E Services to include but not limited to design, 2D, 3D conceptual models and Mock-ups.
- Electrical load studies, electrical drawing, layout plans, panel board design, actual dressing, grounding & bonding, lightning protection system, As per Indian & International Standards.
- Material Supply & Logistical Support Services.
- Heavy Earthmoving Equipment Leasing Services.
- Electronic Surveillance Monitoring Systems, Fire Alarm Systems installation and O&M Services

K-SPAN (Truss Less, Self Supported, Arch Shape) SOLUTION ATTRIBUTES

- Complete "Fast-Track" Build Solution.
- Building Solution for all inclement weather conditions.
- Built IAW engineering safety margins to include but not limited to; wind speeds, Seismic Activity, Extreme Heat & Cold Climatic Conditions.
- Non Complex Structural Integrity framework & durability.
- Year around Low Maintenance.
- Simplistic Foundation Design Requirements.

K-SPAN QUICK FACTS

The “K” Span technology is "Flexible" & "Versatile"; Allowing for a multitude of D&B applications, Roofing Solutions avoiding the conventional need of trusses and purlin assembly for your roofing requirements, just to name a few...

A virtual “Factory on Wheels”, the mobility of the machinery and its ability to perform at the site allows for Adhoc Response, constructing within weeks as compared to conventional construction that involves months.

The K-Span Technology is advantageous providing a “Turn Key” solution.

PEB & PRE-FAB SOLUTIONS

Pre Engineered Buildings are custom made to suit a wide range of application in different industry sectors.

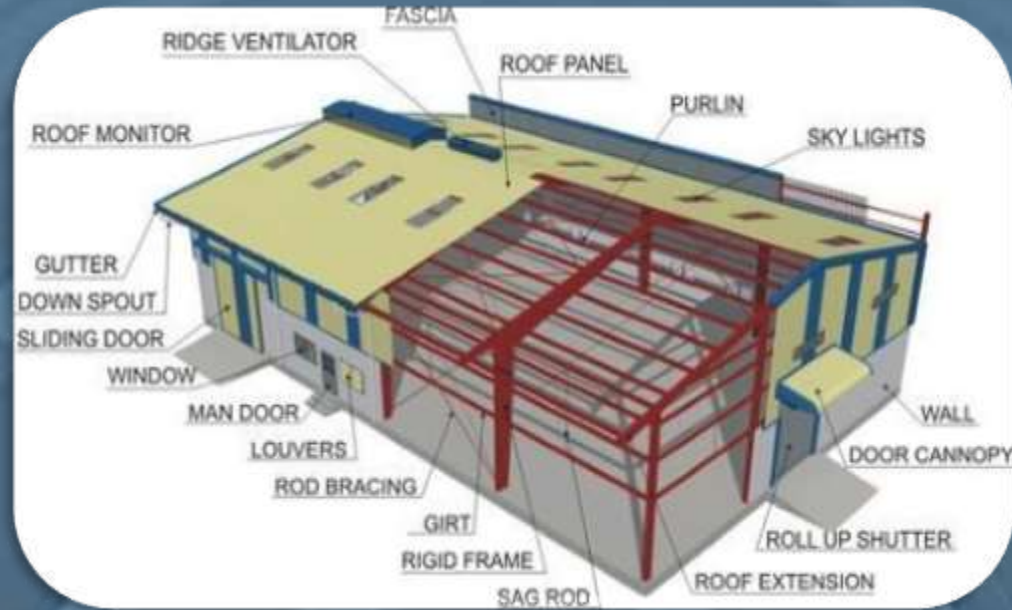

These metal buildings are different from conventional buildings in ways like speed in delivery and erection, flexibility in expansion and withstand severe weather conditions.

We are a one stop solution provider for all your structural needs and have products ranging from Porta cabin, Canopies, Mezzanine Floors, Stairs, etc. Having an experience of over two decades in this industry.

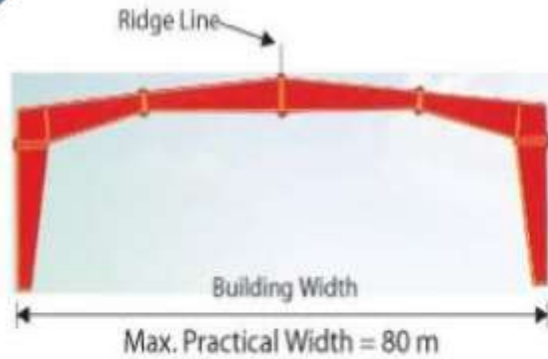

We truly comply with all the ISI specifications while designing and manufacturing all our structures which ensure all-out safety and are quite economical as well, as we incorporate quality raw materials and sheets in their making.

These are Pre-fabricated are Eco Friendly , recyclable . and have 100% salvage value at any time.

HEAVY EARTHMOVING EQUIPMENT LEASING

The company is a proud possessor and operator of a large gamut of constructions and earth moving equipment that successfully have added value to our Company Profile.

With a large fleet of Heavy Earthmoving sophisticated equipment, our techno-commercial capability to meet all critical site demands in construction, ensures that every project-specific equipment need is addressed.

SAFETY, HEALTH, ENVIRONMENT & QUALITY

Along with the zest of delivering excellence, GRRGL is deeply concerned for the safety of the environment. Giving the ecosystem a top priority, GRRGL Committed to a “Full Compliance Culture” All the activities at GRRGL are executed through a highly efficient Safety, Health, Environmental and Quality (SHE-Q) Management System. All the employees realize the significance of a balanced environment and sincerely observe SHE-Q as an integral part of their daily activities.
